F

Fibrocystic breast disease, cytologic features of, 140
Fine-needle aspiration biopsy/cytology
of adrenal masses, 323
of bladder, uroplakin in, 216
of breast
vs. core needle biopsy, 146
cyclin D1 in, 211
false-positive results in, 132
of bronchioloalveolar cancer, 29
diagnostic accuracy of, physician training and, 263
of epithelioid sarcoma, 246
of gastrointestinal stromal tumors, 269, 276
of granular cell tumors, 398
of hibernoma, 206
of Hodgkin's disease, 52
immediate on-site interpretation of, costs and compensation analysis of, 319
of liver, hepatocyte paraffin 1 antibody in, 288
of lung
interpretation difficulties in, 364
thyroid transcription factor 1, PE-10 and cytokeratins 7 and 20 in, 330
of lymphoma and leukemia, 35
of melanoma, antigen expression during immunotherapy and, 409
of peripheral T-cell lymphoma, 151
of pilomatrixoma, 252
of pulmonary spindle cell and mesenchymal lesions, 187
of renal oncocytoma vs. renal cell carcinoma, 390
of soft tissue masses, in multiple myeloma, 257
of spindle cell lipoma, 381
of thyroid, ThinPrep processing of, 179
of thyroid bed, ultrasound-guided, 199
Flow cytometry
in Bethesda classification of Pap smears, 222
in in multiple myeloma, 257
Fluorescent in situ hybridization, in detection of chromosomal aneusomy, in breast cancer, 165

G

Gastrointestinal stromal tumors, vs. leiomyosarcoma, 276
Granular cell tumors, cytology of, 398

H

Hepatocellular carcinoma, vs. metastatic disease, hepatocyte paraffin 1 antibody in, 288
Hibernoma, fine-needle aspiration biopsy of, 206
Hodgkin's disease, fine-needle aspiration biopsy biopsy of, 52
Hormone replacement therapy, atypical findings on ThinPrep cytology in, 357
Human immunodeficiency virus infection, squamous intraepithelial lesions in, in women, 111
Human telomerase, RNA component of, in bladder washings, 73

I

Image analysis
of common bile duct brushings, 229
in endocervical adenocarcinoma, 160
Immunocytochemistry
of gastrointestinal stromal tumors, 269
of peritoneal washings, in endometrial cancer, prognosis and, 115
of pleural effusions, 293
of serous effusions, in adenocarcinoma, 68
Immunostaining
androgen receptor, in salivary duct carcinoma, 344
of peritoneal washings, in endometrial cancer, 115
of renal oncocytoma vs. renal cell carcinoma, 390
Impression cytology, of ocular surface squamous neoplasia, 60

L

Laparotomy, second-look, in ovarian cancer, peritoneal cytology in, 376
Lavage
bladder, human telomerase in, 73
bronchoalveolar, diagnostic dilemmas with, 364
peritoneal, in endometrial cancer, immunocytochemistry of, prognosis and, 115
Leiomyosarcoma, vs. gastrointestinal stromal tumors, 276
Leukemia, soft-tissue involvement in, fine-needle aspiration biopsy for, 35
Lipoma, spindle cell, cytologic features of, 381
Liver, fine-needle aspiration biopsy of, hepatocyte paraffin 1 antibody in, 288
Lung
cytology of, diagnostic dilemmas in, 364
fine-needle aspiration biopsy of, thyroid transcription factor 1, PE-10 and cytokeratins 7 and 20 in, 330
spindle cell and mesenchymal lesions of, transthoracic fine-needle aspiration biopsy of, 187
Lung cancer, small-sized adenocarcinoma, cytology and clinical behavior of, 124
Lymph node biopsy, in Hodgkin's disease, 52
Lymphoma
Hodgkin's, fine-needle aspiration biopsy biopsy of, 52
peripheral T-cell, fine-needle aspiration biopsy of, 151
soft-tissue involvement in, fine-needle aspiration biopsy for, 35

M

Malignant melanoma
fine-needle aspiration biopsy of, antigen expression during immunotherapy and, 409
microphthalmia transcription factor in, 337
Malignant mesothelioma, effusion immunocytochemistry in, 293
Medicare reimbursement, for fine-needle aspiration biopsy, 319
Mesenchymal lesions, transthoracic fine-needle aspiration biopsy of, 187

Mesothelioma
effusion immunocytochemistry in, 293
serous effusions in, immunocytochemistry of, 68
Metastasis, hepatic, vs. hepatocellular carcinoma, hepatocyte paraffin 1 antibody in, 288
Microphthalmia transcription factor, in melanoma, 337
MOC-31 immunostaining, of peritoneal washings, in endometrial cancer, 115
Multiple myeloma, soft tissue masses in, fine-needle aspiration biopsy of, 257

N

Neural networks, in cervical screening, 171 (editorial), 173
Non-Hodgkin's lymphoma, soft-tissue involvement in, fine-needle aspiration biopsy for, 35

O

Ocular surface squamous neoplasia, cytomorphology of, 60
Oncocytomas, renal, vs. renal cell carcinoma, on fine-needle aspiration biopsy, 390
Ovarian cancer, second-look laparotomy in, peritoneal cytology in, 376

P

p53, in peritoneal washings, in endometrial cancer, prognosis and, 115
Papanicolaou smear
annual, recommendations for, 81
atypical glandular cells of undetermined significance in
endometrial vs. endocervical origin of, clinical implications of, 351
in peri/postmenopausal women, 1, 100
atypical squamous cells of undetermined significance in, qualification of by conventional and liquid-based methods, 93
Bethesda classification of, DNA cytometry in, 222
false-negative rate for
determination of, 86, 106
with manual rescreening, 106
repeated blind rescreening of, 241
reproducibly identified, estimation of percentage of, 241
sensitivity of for cervical adenocarcinoma, 8
small cells in, in tamoxifen recipients, 23
ThinPrep. *See* ThinPrep cytology
without an endocervical component, longitudinal analysis of, 237
PE-10, in lung fine-needle aspiration cytology, 330
Peripheral T-cell lymphoma, fine-needle aspiration biopsy of, 151
Peritoneal cytology, in second-look laparotomy, in ovarian cancer, 376
Peritoneal fluid, serous neoplasms in, 309
Peritoneal washings, in endometrial cancer, immunocytochemistry of, prognosis and, 115
Pheochromocytoma, fine-needle aspiration biopsy of, 323
Physician training, for fine-needle aspiration cytology, 263
Pilomatrixoma, fine-needle aspiration biopsy of, 252
Pleural effusions, immunocytochemistry of, 293
Postmenopausal women
hormone replacement therapy in, atypical findings on ThinPrep cytology and, 357
Pap smear for, atypical glandular cells of undetermined significance in, 1, 100
Pulmonary cytology, diagnostic dilemmas in, 364
Pulmonary spindle cell lesions, transthoracic fine-needle aspiration biopsy of, 187

R

Reactive mesothelial cells
in peritoneal fluid, vs. serous neoplasms, 309
in serous effusions, immunocytochemistry of, 68
Renal oncocytomas, vs. renal cell carcinoma, on fine-needle aspiration biopsy, 390
RNA component of telomerase, in bladder washings, 73

S

Salivary duct carcinoma, androgen receptor immunostaining in, 344
Sarcoma, epithelioid, fine-needle aspiration biopsy of, 246
Screening, for cervical cancer. *See also* Papanicolaou smear; ThinPrep cytology
neural networks for, 171 (editorial), 173
Second-look laparotomy, in ovarian cancer, peritoneal cytology in, 376
Serous effusions, differential diagnosis of, immunocytochemistry in, 68
Serous neoplasms, in peritoneal fluid, 309
Small cells, in Pap smear, tamoxifen and, 23
Smears, cervical
neural-network screening of, 171 (editorial), 173
Papanicolaou. *See* Papanicolaou smear; ThinPrep cytology
Soft tissue masses, in multiple myeloma, fine-needle aspiration biopsy of, 257
Spindle cell lesions, pulmonary, transthoracic fine-needle aspiration biopsy of, 187
Spindle cell lipoma, cytologic features of, 381
Squamous intraepithelial lesions, in HIV-infected women, 111
Squamous neoplasia, ocular surface, cytomorphology of, 60
Stromal tumors, gastrointestinal, vs. leiomyosarcoma, 276

T

Tamoxifen, small cells in Pap smear and, 23
Telomerase, RNA component of, in bladder washings, 73
ThinPrep cytology
for cervical smears. *See also* Papanicolaou smear
atypical findings on, in hormone replacement therapy, 357

atypical squamous metaplastic cells in, 16
in effusion immunocytochemistry, 293
for thyroid aspirate, 179
Third-party payment, for fine-needle aspiration biopsy, 319
Thyroid, fine-needle aspiration biopsy of
ThinPrep processing of, 179
ultrasound-guided, 199
Thyroid transcription factor 1, in lung fine-needle aspiration cytology, 330
Transitional cell carcinoma, metastatic, uroplakin in, 216
Transthoracic fine-needle aspiration biopsy, of pulmonary spindle cell and mesenchymal lesions, 187

U

Ultrasound-guided fine-needle aspiration biopsy, of thyroid bed, 199
Urine cytology, telomerase in, 73
Uroplakin, in metastatic transitional cell carcinoma, 216

V

Vimentin immunostaining, of renal oncocytoma vs. renal cell carcinoma, 390
